Business Intelligence Competency

The trusted experts
in the BI Consultancy
& Services space

“Business intelligence (BI) is an umbrella term that includes the applications, infrastructure and tools, and best practices that enable access to and analysis of information to improve and optimize decisions and performance.”

- Gartner

“Our Alacrity BI consultants have a combined 120+ years of Business Intelligence experience.”

about us

A fundamental key to delivering and implementing the right BI solution is the local availability of relevant expertise and skill sets.

Our Alacrity BI consultants have a combined 120+ years

of Business Intelligence experience. As we are product agnostic, we are able to offer a holistic BI services solution to the corporate market, specialising in IBM

DataStage, IBM Cognos, Microsoft SQL Server, Microsoft SSIS & Reporting Services, as well as SAP Sybase IQ and ASE, SAP HANA, BusinessObjects and BW.
